# MOONRAKER

## PLAYING RULES

- Play with one or two players.
- Use one coin for a single's game, and two coins for a double's game.
- Shoot down bombs coming from the UFO by operating FIRE button located on the right side of the game machine. To defend yourself from the UFO attack use the fighter-plane, directed by the lever on the left side of the machine. A high score will be given when a player shoots down a UFO low on the screen.
- If a player scores over 3,000 points, he is given another fighter-plane to use.
- A bonus of 500 points is awarded every game.
- When all the fighter-planes have been destroyed, the game is over.
